Golden, CO 80402-0928

re: SAP for PCB Removal

Dear Mr. Slaten:

EPA has reviewed your submittal of the Sampling and Analysis Plan for the PCB removal. We have no comments on the material submitted, except to note that a separate submittal of SAPs pursuant to PAMs is unnecessary. Pertinent sampling and analysis information should be included within or attached to the PAM.

In the event that changes need to be made in the Sampling and Analysis approach subsequent to PAM approval, documentation of these changes can be submitted as necessary.

If you have questions or would like to discuss the progress of this effort, please contact Bill Frazer (EPA) at 294-1081.

Sincerely,

A handwritten signature in black ink, appearing to read "Martin Hestmark".
